MANAGEMENT DISCUSSION AND ANALYSIS

OVERALL REVIEW

The year saw the bitter US China trade war. It had an all-round effect on the global trade and all the economies were affected by it. The raw material prices of polyester as well as nylon are directly dependent on crude oil price which fluctuated sharply throughout the year. The exports picked up well in the later half of the year. The year saw a good business for manufacturers of synthetics in India.

However, the end of the year started getting affected by the Covid 19 pandemic which thereafter has resulted in a serious lockdown around the globe with businesses coming to a total standstill and even regular individual lifestyle got drastically affected. This resulted in uncertainties that have never been experienced in the past.

The Government is hand in hand with its citizens and industry. They have announced a series of support measures to industry and labour and with its foresight proactiveness, saved the situation to a considerable extent to avoid the economy from collapsing.

TEXTILE INDUSTRY SCENARIO

The textile and apparel industry is one of the oldest industries in Indian economy. It is also one of the largest sectors in output and employment generation. It is also one of the chief earners of foreign exchange from exports.

Synthetic yarns are used for the manufacture of wearing apparels, made-ups and other advanced applications like geo textiles and industrial uses.

The domestic textiles and apparel market was estimated at US\$ 100 billion in 2019. This has grown at a compounded growth rate of 10 percent since 2006. The size of India's textile market is expected to touch US\$ 223 billion by 2021, growing at a CAGR of 10.23 percent. The growth in demand is expected to continue at a healthy rate of 12 per cent CAGR to reach US \$ 220 billion by 2025. India's textile exports were at US\$ 38.70 billion in 2019. This is estimated to go up to US\$ 82.00 billion by 2021. (Source :ibef.org)

Rising government focus and favourable policies is leading to growth in the textiles and clothing industry. The Ministry of Textiles is encouraging investment through increasing focus on schemes such as Technology Up-gradation Fund Scheme (TUFS). In Union Budget 2020-21, the Government has allocated Rs. 761.90 crores (US\$ 109.01 million) for amended Technology Upgradation Fund Scheme (A-TUFS). The Cabinet Committee on Economic Affairs (CCEA), Government of India has approved a new skill development scheme named "scheme for Capacity Building in Textile Sector (SCBTS)". The Government announced a special package to boost export by US\$ 31 billion, create one crore job opportunities and attract investment worth Rs. 80000 crores (US\$ 11.93 billion) during 2018-2020. 100 percent FDI (Foreign Direct Investment) is permitted in the sector. Cumulative FDI inflow in the textiles sector stood at over US\$ 3.44 billion between April, 2000 to March, 2020. (Source- India Brand Equity Foundation)

In Union Budget 2020-21, The Government of India has allocated around Rs. 3,515 crore (US\$ 502.93 million) to the Ministry of Textiles and Rs. 80 crore (US\$ 11.45 million) for the scheme on Integrated Textile Parks. The Ministry of Textiles has announced Rs. 690 crore (US\$ 106.58 million) for setting up 21 readymade garment manufacturing units in seven states for development and modernisation of Indian Textile sector. National Technical Textiles Mission is proposed for a period from 2020-21 to 2023-24 at an estimated outlay of RS. 1480 crore (US\$ 211.76 million). (Source- India Brand Equity Foundation).

COMPANY REVIEW

The first half of the last year was partially affected by restrictions on international trade by the US on countries like China, Turkey and Iran. This had its effect on India's trade also. However, the second half improved gradually as the restrictions tapered out. The fluctuating crude prices and decline in various industries like automobiles, real estate, etc, have their impression on the year's performance. The Company's exports improved considerably during the year

However, the Covid 19 pandemic is the biggest event thereafter. Although it affected only the last month in the year, its effect in the following year has been most damaging. The entire nation went on a lockdown where all industries were brought under a standstill and there was large scale exodus of workmen from their workplaces to the native places. There has been widespread pessimism and uncertainty.

This was immediately brought in control by the government which took very encouraging and pacifying steps to control the economy. It has provided these revival packages in series and did all the necessary modifications to existing laws like redefining the MSME sector, etc.

The Company's rising power cost is an area of concern, specially in Silvassa. The market demand is trickling in as

production has begun in most parts of the industry and workmen have returned from their native places. The second half of the current year is expected to perform better. The markets are likely to stabilize soon and international trade is expected to pick up at the earliest now.

COMPANY OUTLOOK

The Company has developed many new yarns and customers in the domestic and international markets. However, after the strike of the pandemic the same will have to be revived soon and the management is on this task.

The common risks inter alia, are: regulations, competition, business risk, technology obsolescence, foreign exchange exposure, commodity price risks, investments, retention of talent and expansion of facilities. Apart from the above the Company also faces requirement of market substitution between domestic and international due to the uncertainty of accessibility.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCE AND INDUSTRIAL RELATIONS

As on March 31, 2020 the Company had 70 permanent employees at its manufacturing plants and administrative office. The Company recognises the importance of Human Resource as a key asset instrumental in its growth. The Company believes in acquisition, retention and growth of talented team players. The Industrial Relations in the Company are satisfactory and cordial.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has an internal control system in place which is commensurate with the size and nature of the business. The internal controls are aligned with statutory requirements and designed to safeguard the assets of the Company. The Management reviews and strengthens the controls periodically. Apart from self monitoring of the internal controls, there is independent Chartered Accountant firm appointed to conduct internal audit of the Company's operations. The Statutory Auditors present their observations to the Audit Committee on financial statements including the financial reporting system.

The Audit Committee takes due cognisance of the observations made by the auditors and gives their suggestions for improvement. The suggestions of the Audit Committee further ensure the quality and adequacy of the control systems.

INDEPENDENT AUDITORS' REPORT

**To the Members of
Supertex Industries Limited**

Report on the Audit of the standalone financial statements

Opinion

We have audited the standalone financial statements of Supertex Industries Limited ("the Company"), which comprise the balance sheet as at 31st March 2020, and the statement of profit and loss (including Other Comprehensive Income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'the revised standalone financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ('Ind AS') and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and its profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1	<p><u>Capitalisation of Property, plant and equipment</u></p> <p>As part of expansion at Dharampur plant the Company has incurred capital expenditure by addition of various machines including sizing, warping and beamer etc. The project has almost completed during the year. Accordingly level of judgement was involved to ensure that capitalisation of property plant & equipment meet the requisite criteria of IND-AS 16. This is in relation to determination of cost upto the date of commissioning of the respective machine. As a result the aforesaid matter was determined to be a key audit matter.</p>	<p><u>Principal Audit Procedures</u></p> <p>Our Audit procedure included and were not limited to the following:</p> <ul style="list-style-type: none"> i) Assessing the nature of the cost incurred as to whether it pertains to the property, plant and equipment added. ii) Whether such cost are incurred specifically for trial run/commissioning and meet the recognition criteria as set out in Para 16 to 22 of IND-AS 16.
2	<p><u>Valuation of Inventories</u></p> <p>The inventory of the Company comprises raw material, work in progress, finished goods and goods in transit. 	<p>inventories are physically counted at each month end and the valuation is done monthly. The Company manufactures synthetic filament yarn including polyester and nylon. The Company caters to both the domestic as well as export market. In compliance with the accepted accounting policy the valuation of the inventories is done as mentioned in Note no. 1 (f) Significant Accounting Policies.</p> <p>Refer Note no. 8 to the Revised standalone financial statements</p>	

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis Report including Annexures to Board's Report, Corporate Governance and Shareholder's information but does not include the financial statements and our auditor's report thereon, which we obtained prior to the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the standalone financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the 'Annexure A' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the IndAS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (e) On the basis of the written representations received from the directors as on 31st March 2020 and taken on record by the Board of Directors, non of the directors is disqualified as on 31st March 2020 from being appointed as a

director in terms of section 164 (2) of the Act.

- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in 'Annexure B'.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note no.30(I) to the financial statements;
 - ii. The company has not entered into any long term contract including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

**ANNEXURE - B TO INDEPENDENT AUDITORS' REPORT****Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Supertex Industries Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note No 1. SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS FOR THE YEAR ENDED 31ST MARCH, 2020

1. (a) Corporate Information: Supertex Industries Limited was formed in 1986 is a Company limited by shares incorporated and domiciled in India. It is engaged in the manufacture of draw warped and sized yarn beams of polyester and nylon. It also manufactures textured and twisted yarns of polyester and nylon. The Company also exports these yarns and trades in textile fabrics.

1. (b) Significant Accounting Policies:

(a) Basis of Preparation of Financial Statements:

- (i) The financial statements have been prepared in compliance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.
- (ii) The financial statements have been prepared on the historical cost basis except for the following assets and liabilities which have been measured at fair value:
 1. Financial instruments measured at fair value through profit and loss
 2. Defined benefit plans – plan asset value through other comprehensive income

(b) Classification of Assets and Liabilities as Current and Non-Current: All the assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalent, the Company has ascertained its operating cycle to be 12 months for the purpose of current/ non current classification of assets and liabilities.

(c) Basis of measurement: The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values.

(i) Measurement of Fair Values: The Company's accounting policies and disclosures require the measurement of fair values, for both financial assets and liabilities. Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the assets or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and lowest priority to unobservable inputs (Level 3 inputs).

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The Company has consistently applied the following accounting policies to all periods presented in these financial statements.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. This involves significant judgments in selection of a method in making assumptions that are mainly based on market conditions existing at the Balance Sheet date and in identifying the most appropriate estimate of fair value when a wide range of fair value measurements are possible.

(ii) Use of estimates and judgments: The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods affected.

Key sources of estimation of uncertainty at the date of financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of useful lives of property, plant and equipment and fair value of financial assets/liabilities.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

- (iii) **Useful lives of property, plant and equipment:** The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This re-assessment may result in change in depreciation expense in future periods.
- (d) **Revenue Recognition:**
- (i) **Sales revenue** is recognized on transfer of the significant risks and rewards of ownership of the goods to the buyer. Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as Revenue are net of VAT / GST, trade discounts and rebates.
- (ii) **Interest income** is recognized using effective interest rate method and on time proportion basis taking into account the amount outstanding and the interest rate applicable.
- (e) **Borrowing Costs:** Borrowing costs directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of the assets upto the date the asset is ready for their intended use. All other borrowing costs are recognised in the Profit and Loss in the year in which they are incurred.
- (f) **Inventories :** Raw material is valued at weighted average cost, stock in process at manufacturing cost based on weighted average cost of raw material and overheads upto relevant stage of completion, stores and spares at cost and finished goods at lower of cost of production and net realisable value. Purchased finished goods are valued at cost and by-products and waste are valued at net realisable value. Obsolete, defective, slow moving and unserviceable inventories, if any, are duly provided for.
- (g) **Property, Plant and Equipment:** Items of property, plant and equipment are stated in balance sheet at cost less accumulated depreciation and accumulated impairment losses, if any.
When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.
- (i) **The estimated useful lives are as follows:**

Asset Category	No. of Years
Buildings	30-60
Plant and equipment	5-25
Plant and equipment – Computers	3-5
Furniture and fixtures	10
Office Equipment	3-5
Vehicles	8

- (ii) **De-recognition :** An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of property, plant and equipment and is recognised in profit or loss.
Depreciation is recognised so as to write off the cost of assets (other than freehold land and Capital work-in-progress) less their residual values on straight-line method over their useful lives as indicated in Part C of Schedule II of the Companies Act, 2013. Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.
- (h) **Intangible assets:** Identifiable intangible assets are recognized when the Company controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be measured reliably.
The intangible assets are initially recognised at cost. These assets having finite useful life are carried at cost less accumulated amortization and any impairment losses. Amortisation is computed using the straight-line method over the expected useful life of intangible assets.
The Company has established has estimated of useful lives of different categories of Intangible assets as follows:
- i) Softwares: : are amortized over the period of license, generally not exceeding five years.
- (i) **Financial instruments:** A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.
- (j) **Investment and other financial assets:**
- a) **Initial recognition and measurement:** All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.
Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortized cost.
- b) **Subsequent measurement:** For purposes of subsequent measurement, financial assets are classified in Three categories:

- i. Financial assets measured at amortised cost
- ii. Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii. Financial assets measured at fair value through profit or loss (FVTPL)
- i. A financial asset that meets the following two conditions is measured at amortized cost.
 - Business Model test: The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
 - Cash flow characteristics test: Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.
- ii. A financial asset that meets the following two conditions is measured at fair value through OCI:-
 - Business Model test: The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
 - Cash flow characteristics test: The contractual terms of the instrument give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.
- iii. All other financial assets are measured at fair value through profit and loss.
- c) **Equity Instruments:** All equity instruments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, including foreign exchange gain or loss and excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the profit or loss.
- d) **Derecognition:** A financial asset is primarily derecognised (i.e. removed from the Company's balance sheet) when:
 - a) The contractual rights to receive cash flows from the asset have expired, or
 - b) The Company has transferred substantially all the risks and rewards of the asset, or
 - c) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in OCI and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.
- (ii) **Financial liabilities:**
 - a) **Initial recognition and measurement:** All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.
 - b) **Subsequent measurement:** All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.
 - c) **Financial liabilities at fair value through profit or loss:** Financial liabilities are classified as at FVTPL when the financial liability is held for trading or is designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred principally for the purpose of repurchasing in the near term or on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking. This category also includes derivative entered into by the Company that are not designated and effective as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.
 - d) **Derecognition:** A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.
 - e) **Derivative financial instruments:**

Initial recognition and subsequent measurement: The Company uses derivative financial instruments, such as forward currency contracts, full currency swap, options and interest rate swaps to hedge its foreign currency risks and interest rate risks respectively. Such derivative financial instruments are initially recognised at fair value on

the date on which a derivative contract is entered into and are subsequently re-measured at fair value at the end of each reporting period. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss

(k) Leases:

As a lessee: Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease or other systematic basis more representative of the time pattern of the user's benefits.

(l) Income tax:

- a) **Current Income Tax:** Income tax expense consists of current and deferred tax. Income tax expense is recognised in profit or loss except to the extent that it relates to items recognised in OCI or directly in equity, in which case it is recognised in OCI or directly in equity respectively. Current tax is the expected tax payable on the taxable profit for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous years. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

- b) **Deferred Tax:** Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period. Deferred tax assets and liabilities are offset if there is a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Withholding tax arising out of payment of dividends to shareholders under the Indian Income tax regulations is not considered as tax expense for the Company and all such taxes are recognised in the statement of changes in equity as part of the associated dividend payment.

Minimum Alternate Tax ("MAT") credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as an asset is reviewed at each Balance Sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

- (m) **Foreign currency transactions:** Transactions in foreign currencies are translated to the respective functional currencies of entities within the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at that date. Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognized in the consolidated income statement in the period in which they arise.

When several exchange rates are available, the rate used is that at which the future cash flows represented by the transaction or balance could have been settled if those cash flows had occurred at the measurement date.

- (n) **Cash and cash equivalents:** Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and Fixed deposits. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and fixed deposits, as defined above.
- (o) **Earnings per Share:** Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares as above and also the weighted average number of equity shares upon conversion of all dilutive potential equity shares.

(p) Employees benefits:

- (i) **Defined benefit plans:** The liability in respect of defined benefit plans is calculated using the projected unit credit method with actuarial valuations being carried out at the end of each annual reporting period. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds. The currency and term of the government bonds shall be consistent with the currency and estimated term of the post-employment benefit obligations. The current service cost of the defined benefit plan, recognised in the profit or loss as employee benefits expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognised in profit or loss in the period of a plan

amendment. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in profit or loss. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to OCI in the period in which they arise and is reflected immediately in retained earnings and is not reclassified to profit or loss.

- (ii) **Short-term and Other long-term employee benefits:** A liability is recognised for benefits accruing to employees in respect of wages and salaries, and casual leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

The Company's net obligation in respect of other long term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value.

- (iii) **Defined contribution plans:** The Company's contributions to defined contribution plans are recognised as an expense as and when the services are received from the employees entitling them to the contributions.

(q) Impairment of Assets:

- (i) **Impairment of financial assets :** The Company applies the Expected Credit Loss (ECL) model for recognizing Impairment Loss on financial Assets. An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in a prior accounting period is reversed if there has been a change in the estimate of the recoverable amount.

- (ii) **Impairment of non-financial assets :** The carrying amounts of the Company's PPE and intangible assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell.

An impairment loss is recognised in the profit or loss if the estimated recoverable amount of an asset or its cash generating unit is lower than its carrying amount. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

In respect of other asset, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(r) Provisions, contingent liabilities and contingent assets :

- (i) **Provision:** is recognized when there is a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined (as provided/charged to the Statement of Profit and Loss) based on estimate of the amount required to settle the obligation at the Balance Sheet date and are not discounted to present value.

- (ii) **Contingent Liabilities:** are not recognized but are disclosed in the financial statements. Claims against the Company where the possibility of materialization is remote are not considered as contingent liabilities.

- (iii) **Contingent Assets:** are neither recognized nor disclosed in the financial statements.

- (s) **Segment Reporting:** The Company deals in only one product i.e. "Textiles". The Company has identified and reported two reportable operating segments, "Domestic" and "International" in accordance with the requirements of Ind-AS 108.

Operating Segment: Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker of the Company is responsible for allocating resources and assessing performance of the operating segments and accordingly is identified as the chief operating decision maker.

The Chief Operational Decision Maker monitors the operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit and loss and is measured consistently with profit and loss in the financial statements. The Operating segments have been identified on the basis of the nature of products/services.

- i) Segment revenue includes sales and other income directly identifiable with the segment including intersegment revenue.
- ii) Expenses that are directly identifiable with the segments are considered for determining the segment results. Expenses which relate to the Group as a whole and not allocable to segments are included under unallocable expenditure.
- iii) Income which relates to the Group as a whole and not allocable to segments is included in unallocable income.

- iv) Segment result includes margins on inter-segment and sales which are reduced in arriving at the profit before tax of the Group.
- v) Segment assets and liabilities include those directly identifiable with the respective segments. Unallocable assets and liabilities represent the assets and liabilities that relate to the Group as a whole and not allocable to any segment.

(t) Recent Accounting pronouncements:

Standards issued but not yet effective: The amendments to standards that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

The Ministry of Corporate Affairs (MCA) has issued the Companies (Indian Accounting Standards) Amendment Rules, 2017 and Companies (Indian Accounting Standards) Amendment Rules, 2018 amending the following standard:

- i) **Ind AS 115 Revenue from Contracts with Customers:** On March 28, 2018, Ministry of Corporate Affairs has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Specifically, the standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligation in contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under Ind AS 115, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer.

Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

- **Retrospective approach:** Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8-Accounting Policies, Changes in Accounting Estimates and Errors
- **Retrospectively with cumulative effect:** of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach). The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018.

The Company will adopt the standard on April 1, 2018 by using the cumulative catch-up transition method and accordingly comparatives for the year ending or ended March 31, 2018 will not be retrospectively adjusted. The effect on adoption of Ind AS 115 is expected to be insignificant.

- (ii) **Appendix B to Ind AS 21, Foreign currency transactions and advance consideration:** On March 28, 2018, MCA has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. This amendment will come into force from April 1, 2018. The Company expects the impact of this on the financial statements to be insignificant.

- (iii) **Amendments to Ind AS 12 Recognition of Deferred Tax Assets for Unrealised Losses:** The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

These amendments are effective for annual periods beginning on or after 1 April 2018. These amendments are expected to have insignificant impact on the Company.

- (iv) **Transfers of Investment Property — Amendments to Ind AS 40:** The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use.

The amendments are effective for annual periods beginning on or after 1 April 2018. The Company will apply amendments when they become effective. However, since Company's current practice is in line with the clarifications issued, the Company does not expect any effect on its financial statements.

34 Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk

(i) Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company risk management framework. The board of directors is responsible for developing and monitoring the Company risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit

undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities, cash and cash equivalents, mutual funds, bonds etc.

The carrying amount of financial assets represents the maximum credit exposure.

Trade and other receivables :

A major part of the sales are export sales. The customer credit risk is managed by requiring domestic and export customers to pay advances before transfer of ownership, therefore substantially eliminating the Company's credit risk in this respect.

Based on prior experience and an assessment of the current economic environment, management believes that no provision is required for credit risk wherever credit is extended to customers.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation.

The Company has obtained fund and non-fund based working capital lines from the bank. The Company also constantly monitors funding options available in the debt and capital markets with a view to maintaining financial flexibility.

Exposure to liquidity risk :

The table below analyses the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for:

* all non derivative financial liabilities

* net and gross settled derivative financial instruments for which the contractual maturities are essential for the understanding of the timing of the cash flows.

(iv) Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates, foreign currency exchange rates) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of its investments. Thus, the Company's exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currencies.

(v) Currency risk:

The company is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales, purchase, other expenses and borrowings are denominated and the functional currency of the company. The functional currency of the company is Indian Rupees (INR). The currencies in which these transactions are primarily denominated are USD.

From time to time, the Company uses forward exchange contracts to hedge its currency risk.

The Company, as per its risk management policy, uses foreign exchange forward contract primarily to hedge foreign exchange. The Company does not use derivative financial instruments for trading or speculative purposes.
